

Energy Procurement Supply Association Inc.

Membership

EPSA (Energy Procurement Supply Association Inc.) membership spans the Asia Pacific region with members based in Hong Kong, Macau, Malaysia and across most Australian States and Territories. Representatives from EPSA member organisations stay connected through the year via Formal Conferences (usually twice per year) and Online Events (e.g. Webinars).

EPSA brings together supply chain / procurement managers from different utility companies operating in the Asia Pacific region for the purpose of creating tangible business benefits to members. This includes exploring best practice opportunities through the sharing of ideas and collaborating on supply chain management activities in the Asia Pacific region.

EPSA holds regular conferences / workshops, instigates workgroups on common issues and conducts qualitative and quantitative benchmarking. Moving forward, EPSA will be introducing programs that support the personal development of supply chain and procurement professionals within the industry.

Members also benefit from initiating simple surveys on contemporary issues, sharing information with best performers and collaborating at a regional cluster level.

Assisting utilities with common challenges and issues

EPSA assists with common challenges and issues in the energy supply chain / procurement space through sharing knowledge, connecting procurement professionals and showcasing procurement solutions from member organisations. The insights gained through the collaborative approach by member organisations can be used to realise and implement important innovative solutions within their respective organisations.

Through networking with like-minded professionals, EPSA members attain proficiencies and share leadership qualities that add real value to EPSA outcomes.

EPSA is keen to pursue the development of emerging supply chain and procurement talent for the utility industry, including the support of scholarship and exchange programs within our membership.

Additionally, the networking opportunities that are made possible here in Australia and throughout Asia are invaluable in obtaining excellent intelligence, particularly in the manufacturing and utilities construction sectors.

In terms of commitment as a member

When at conferences contribute to strategic and tactical discussions for the purpose of influencing positive sustainable procurement and supply outcomes

Contribute relevant helpful information to the member's website where such information would be useful to other EPSA members

EPSA values its members opinions by inviting and encouraging participation and collaboration on all energy supply chain / procurement matters. EPSA acts on and assists with all views and advice on the future direction of the Association and uses this information to help inform the Strategic Plan.

Host an EPSA conference approximately every three years, with EPSA organisation and funding support.

Contribute to a strong effective network of industry experts both at conferences and through normal comms channels

Come join us and be at the leading edge of energy procurement supply innovation in the Asia Pacific region.
